這張圖片是位於台中市霧峰區的乾靈寺，寺院座落於小山坡上，通往乾靈寺的樟公路是條相當美麗的登山步道，因為此寺廟地處偏遠而顯得十分幽靜，外觀上是綠瓦百牆，給人一種很莊嚴雄偉的感覺，也會讓人身心舒展，心平氣和。

This picture is about the Qianling Temple located in the Wufeng District of Taichung City. The temple is located on a small hillside, the Camphor Road to the Qianling Temple is a rather beautiful hiking trail because this temple is remote and very quiet. The appearance is green tiles and walls, giving people a very solemn and majestic feeling and letting people stretch physically and mentally, calm.

這張照片是在攀爬霧峰後山時所拍下來沿途風景照。從圖中可以看到在霧峰山上的景觀，能夠俯瞰整個霧峰區的樣貌。整座山綠油油的一片，還能看到整座城市，若是在晚上想必能看到很漂亮的夜景。

This photo is a scenic photo taken while climbing the back mountain of Wufeng. From the picture, you can see the landscape on Wufeng Mountain, overlooking the entire Wufeng District. The whole mountain is full of green, and you can see the entire city. If you are at night, you must be able to see a very beautiful night scene.

在旅行的途中總會額外發現其他漂亮的景點，如同這張照片，彷彿動畫中才會出現的唯美景色，雖然不怎麼起眼，但若是仔細觀察周遭就會發現這也是難能可貴的一處美好呢。

On the way of the trip, there will always be other beautiful sights found, like this photo, it seems that the beautiful scenery that only appears in the animation, although it is not very eye-catching, but if you carefully observe the surroundings, you will find that this is also a rare beauty.

這是我們當天探勘的景點之一「哲學之路」，當天天氣舒適，沿路微風徐徐，認真跟著各個博學多聞的老師了解自然生態，有看到花蕊成小愛心狀的大花咸豐草，以及巨大的人面蜘蛛，感覺身心靈都被好好療癒一番。

This is one of the scenic spots we explored that day, the "Philosophy Road". The weather was comfortable, and the breeze was gentle along the road. I followed the knowledgeable teachers to understand the natural ecology. I saw the Spanish Needles with stamens in the shape of small hearts and a huge Giant wood spider. I feel that my body and mind have been well healed.

霧峰朝陽科技大學後山的尖後福德宮，是阿罩霧山步道終點，據說四位地主透過市議員牽線，無償提供土地給市府興建觀景台，免費讓民眾前來賞景；這裡有360度的環景視野，可遠眺南投、彰化、台中等地區，更是欣賞夕陽絕景好地方。

尖後 Temple's Earth God is located at the back of the Chaoyang University of Technology in Wufeng. It's also a terminal point of a hiking trail on the 阿罩霧 mountain. It said that the four landowners provided the city with land for the construction of the observation deck at no cost through the intermediary of the city council members, allowing the public to come and enjoy the scenery for free. It has a 360-degree panoramic view of Nantou, Changhua, and Taichung, and is a great place to enjoy the sunset.

## sustainable cities and communities

盡量讓開發商使用環保的材料來建築，不造成大自然過多的負擔，且建築的位置要位在安全評估過後的地點，這樣才能創造永續城鄉。

Try to allow developers to use environmentally friendly materials, without causing too much burden on nature, and the location of the building should be located after the safety evaluation, to create sustainable urban and rural areas.

## life on land

在開發前，需經專業人士評估，確保開發地點對自然的傷害最小、不嚴重影響生物的棲息地。

Before development, a professional assessment is required to ensure the development site will cause minimal damage to nature and not seriously affect the habitat of organisms.

## partnerships for the goals

居民、開發商、政府，需定期協調、探討並確認問題，三方需共有環保意識。另外也可以建立意見箱、網站等等，供遊玩的旅客填寫，一起促進永續。

Residents, developers, and the government need to coordinate, discuss and confirm problems regularly, and the three parties need to share environmental awareness. In addition, to established suggestion boxes, and websites for tourists to fill in and promote sustainability.

# What are some creative ways to solve the issues?

在觀光地中設置吸睛且特別造型的垃圾桶，吸引旅客丟垃圾。設立有趣的保護環境的標語讓人容易記住。開當地的鄉民會議找出環境的問題，與開發商共同協調某些區域可以設立當地特色小店。

First, attractive and specially shaped garbage cans are installed in tourist areas to attract visitors to dump their garbage. Second, it is easy to remember interesting slogans on the protection of the environment. Lastly, open local village meetings to discover environmental problems and coordinate with developers to set up small shops with local characteristics in certain areas.

#### 場域介紹

霧峰的山山步道，具有幽靜的大自然景致。在疲憊爬山過程中，俯瞰霧峰的全景、呼吸新鮮的空氣、探索居民的生活，成為了爬山時的動力與發現。初來到地母廟，沿著哲學之路散步，沿路聽著自然導覽，走到了開滿蘭花楸的松密基地，接著挑戰鯉魚潭登山步道，途中雖然有點累，但到達虎頭山飛行基地的風景美，覺得自己坐在草地也感受到搭飛行傘在空中翱翔的自由，是此行帶給我們最好的寶藏。

The backcountry trail of Wubong has a quiet view of nature. During the exhausting climb, the panoramic view of Wubong, the fresh air, and the exploration of the residents' lives become the motivation and discovery of the climbing. First Arrival at the Earth Mother Temple. We walked along the philosophical path, listened to the guides along the way, and walked to the secret base of orchids in bloom. The next challenge was the Leiyu Lake hiking trail. Although we were a bit tired on the way, the scenery at the Tiger Head Mountain Flying Base was so beautiful that we felt the freedom of soaring in the air with a parachute, which was the best treasure this trip brought us.
